Cyclone Dust Collector

Dust Collection · Model: Custom

Cyclone dust collector with simple structure, low cost and easy installation and maintenance. Suitable for dry, non-fibrous dust with large particles.

Technical parameters

Type	Single, double or multiple cyclone arrangement
Suitable dust	Dry non-fibrous dust with large particles

Applicable materials

Coal

Applications

Smelting, casting, sandblasting, building materials and refractories.

Working principle

Dust-laden gas enters tangentially; centrifugal force throws particles to the wall and separates them from the gas stream.

Wear parts & materials
